RE: LOBBY RAMP AND LIFT CLOSURE AT FENNELL CAMPUS

The ramp and lifts in the Fennell Campus lobby will close February 15 as major renovations turn Mohawk’s old library into the new home for student services. For safety reasons, a temporary wall will enclose the library, lobby ramp and lifts and several offices on the first and main floors. During the renovations, students, staff and visitors with mobility issues are asked to please use the **F Wing entrance** (circled below) to the west of the front entrance.

The lobby and Reception Desk will remain open during the renovations, with staff available to assist students, visitors and family.

Improving accessibility is a key priority for Mohawk. The new student services centre, scheduled to open this September, will bring together services currently offered at 17 locations throughout the Fennell Campus. The lobby will also be renovated during the summer to significantly improve accessibility, with a new ramp replacing the need for lifts.

...MORE

The renovations to the former library and lobby are part of our ongoing Fennell Campus Renewal Project. The largest campus renewal project in Mohawk's history is driven by the needs of students for improved facilities and services and a more accessible campus. To date, Mohawk has opened the new Harold Cummings Library and Collaboratory in the Learning Exchange, added a new elevator in C-Wing and renovated the cafeteria, C-Wing, A-Wing and Music department.

For more information about the ramp and lifts closure, please contact Jay Robb, Director of Communications at 905.575.1212 ext. 3965 or jay.robb@mohawkcollege.ca. Thank you for your continuing support as we build a more accessible campus and deliver an even higher quality Mohawk education and college experience to our students.

Bob Carrington

Senior Vice President, Corporate Services

The ramp (above left) and lift (right) in the Fennell Campus lobby will be unavailable beginning February 15 as renovations turn the former library into the future home of Mohawk's new student services centre. Students, staff and visitors with mobility issues are asked to use the F Wing entrance (below) during the renovations. The new student services centre and a renovated, fully accessible lobby are expected to be ready by this September.
